i Highlights from this issue
Nick Brown

Editorials

521 Assessing pulsus paradoxus in severe exacerbations of asthma
R Anupraman, A Powell

522 Anthropometry’s promise and pitfalls in the diagnosis of undernutrition among infants
I Trehan

Global child health

524 Criteria for undernutrition screening in hospitalised infants under 6 months: a diagnostic accuracy study in a resource-poor setting
I O Ezetofor, A I Garcia, C M Wright

530 Screening for infection in unaccompanied asylum-seeking children and young people
B Williams, M Boulter, Z Cricks, A Ward, R Naaidoo, A Williams, K Robinson, S Eisen, J Cohen

Original research

533 Oximetry-detected pulsus paradoxus predicts for severity in paediatric asthma
S G Krishnan, H C Wong, S Canapathy, G Y-K Ong

539 Early life exposure to coal mine fire and tobacco smoke affect subclinical vascular function
B Zhao, F H Johnston, T O Sullivan, C J Williamson, S Melody, M Dalton, A Venn, K Negishi

545 Association between hypotension and serious illness in the emergency department: an observational study
N N Hagedorn, J M Zachariasse, H A Moll

553 Vaccine-derived rotavirus strains in infants in England
C M Gower, J Dunn, S Nawaz, D Allen, M E Ramsay, S Ladhani

563 Effectiveness of antimicrobial stewardship programmes in neonatology: a systematic review
A R Araujo da Silva, A Matques, C Di Biase, M Faitatun, I Murni, A Dramowski, J Hübner, W Zingg

569 Temporal trends in incidence of Rolandic epilepsy, prevalence of comorbidities and prescribing trends: birth cohort study
J Stephen, C J Wein, R FM Chin

575 Higher oxygen saturation with hydroxyurea in paediatric sickle cell disease
L van Geyzel, M Arigiam, B Itoua, B Singh, W Kozlowska, S Chakravarty, C J Bouley, G Ruiz, D Rees, A Gupta

580 Contact burns: the influence of agents and mechanisms of injury on anatomical burn locations in children <5 years old and associations with child protection referrals
A A Javid, V Boenitz, I Helen, A M Kemp

587 Nutritional rickets under 16 years: UK surveillance results
P Jules, R M Lynn, K Pall, M Leoni, A Calder, Z Magual, N Shaw, C McDonnell, H McDevitt, M Blar

593 Patterns of long-term ADHD medication use in Australian children
D Elton, M Mulvaney, E Sciberras, H Hiscock, S Heaps, D Coghill

Quality improvement

598 Setting up school-based diabetes clinics to engage adolescents who frequently ‘were not brought to clinic’ and improve self-management
Y Alms Sahun, K Camara, K Gething, D Shenck, J Cane, Y Tse
