Volume 108 Issue 4 | ADC April 2023

Highlights from this issue

243 Atoms
   Nick Brown

Editorial

245 Linking data to build a bigger picture of paediatric referral pathways
   K L Hareon

Global child health

247 Effect of early childhood development interventions delivered by healthcare providers to improve cognitive outcomes in children at 0–36 months: a systematic review and meta-analysis
   R Hove, C Adams, C B Kelly, D McAulay, L Hurt, K M Edmond, N Strobel

258 Neurodevelopmental assessment of small for gestational age children in a community-based cohort from Pakistan
   S Naz, Z Healthy, A Jahar, A Kaleem, B S Hasam, D Chowdhry, M Gladstone

Paediatric emergency medicine

264 Parent-reported factors associated with the emergency department presentation of children and adolescents with autism spectrum disorder and/or intellectual disability with behaviours of concern: a qualitative study
   J Pillar, K Dunn, D Eton

Reviews

271 Children and young people’s mental health outcome measures in paediatrics
   P Rudy, L Cosas da Silva, N Tait, A Rashid, R Singleton, L Arbres, S Mannix, K Datzell, A Labno, J Edbrooke-Clark, J Jacob

276 Graves’ disease: moving forwards
   L C Lane, C L Wood, T Cheetham

283 An overview of the main messages from key data on young people’s health in the UK
   A Hasell, L Worley, R McKenna

Viewpoint

287 Head circumference may be the best proxy for neurodevelopmental risk in children in low-resource settings
   A Connery, A Colbert, M Lamb

Original research

289 Post-COVID-19 condition at 6 months and COVID-19 vaccination in non-hospitalised children and young people
   S M Pinto Pereira, M D Nugaswele, N K Rajas, R Shafian, K Moowat, R Simmons, T Ford, J Heyman, S N Ladhani, E Y Cheung, L Fox-Smith, E Dalrymple, T Stephenson

296 National consensus to develop core outcomes for the evaluation of complications from excess weight (CEWI) clinics: results of a national Delphi process
   P A Sifik, B White, C Graham, E Rigby, J P H Shield, R Brandreb, S Soli, R Owen, S Kenny, CEWI Delphi Collaborators

300 Insights from and limitations of data linkage studies: analysis of short-stay urgent admission referral source from routinely collected Scottish data
   S Dick, R Kyle, P Wilson, L Aucott, E France, E King, C Malcolm, P Hedderwick, G C Turner

307 Clinical characteristics of patients with recurrent Kawasaki disease: a nationwide cohort study of 19 456 patients with minimum 3-year follow up
   S Y Kim, J S Shin, M S Jang, J Kim

Drug therapy

313 Identifying occclusions in paediatric intravenous infusion therapy and evaluating impact on systolic blood pressure
   J Balmer, C Robinson, A Bray, M Drinan, J Hanot

314 Technical response to the Neonatal and Paediatric Pharmacist Group’s proposal to standardise intravenous infusion concentrations for children in the UK
   J Balmer, M Drinan, J Smith

316 Optimising intravenous salbutamol in children: a phase 2 study
   S Walsh, S Pan, Y Sheng, F Klyborg, J P Standing, B J Anderson, P Remasatiyan, OSTRICH Study Group
Towards evidence-based medicine for paediatricians
B Phillips

Can physiotherapy alone reduce spinal curvature in patients with idiopathic scoliosis?
F Khan, L Chinnery, J Loveridge

Vulval (Lipschütz) ulcers in young females associated with SARS-CoV-2 infection and COVID-19 vaccination: case series
V L Crofts, H J Clothier, J Mallard, J P Battery, S R Grever

Vulval (Lipschütz) ulcers in young females associated with SARS-CoV-2 infection and COVID-19 vaccination: case series
V L Crofts, H J Clothier, J Mallard, J P Battery, S R Grever

Restrictive eating disorders in children and young people: the role of the paediatrician and paediatric ward
S Chapman, I D Hudson, K N Street

Please write to me, not about me: best practice in written communication with young people
N A Parekh-Hill, D Wood, M Davis, A Farooq, T Y Segal

Bed-sharing and SIDS: an evidence-based approach
P S Blair, H L Ball, A Pease, P J Fleming

Inequalities in gender-affirming care in Europe: the problematic balance between politics and health
L Barbi, G Tornese

Social outcomes after childhood illness: the missing measure
S H Milner, R Fehlauer, K L Absolom, A Glaser
