Highlights from this issue

- i Atoms
Nick Brown

Editorial

- 1 How do we use the opportunity of prenatal diagnosis of congenital heart disease to optimise outcome?
V Jowett

Ethics and law for clinical practice

- 3 Does parental influence survive the 'Teenage to Young Adult' transition?
R Wheeler

Review

- 5 Is telemedicine suitable for remotely supporting non-tertiary units in providing emergency care to unwell newborns?
G Edwards, J E O'Shea

Global child health

- 11 Diagnostic value of rapid test for malaria among febrile neonates in a tertiary hospital in North-East Nigeria: a prospective cross-sectional study
Y R Adeniji, I Jalo, I Okonkwo, M R Poksireni, M Manga, O Warri, H A Alhassan, E I Warnow

Original research

- 16 Potential benefits of prenatal diagnosis of TGA in Australia may be outweighed by the adverse effects of earlier delivery: likely causation and potential solutions
S P Namachivayam, W Butt, C Brizard, J Millar, J Thompson, S P Walker, M M H Cheung
- 23 Association of maternal risk factors with infant maltreatment: an administrative data cohort study
J N Smith, A Guttmann, A Kopp, A Vandermorris, M Shouldice, K L Harron
- 30 Trends in diagnostic tests ordered for children: a retrospective analysis of 1.7 million laboratory test requests in Oxfordshire, UK from 2005 to 2019
E T Thomas, D R Withrow, B Shine, P Gill, R Perera, C Heneghan
- 37 Association of early-life exposure to acid-suppressive therapy and fractures during childhood: a retrospective cohort study
T Achler, G Chodick, R Shaoul, S Cohen, A Ben-Tov, I Goldshtein

- 43 Hospital discharge using salbutamol as required after acute attacks of wheeze in children: a service evaluation
G Connert, S Harper, B Raut, D James

- 46 Use of healthcare services before diagnosis of attention-deficit/hyperactivity disorder: a population-based matched case-control study
V Prasad, E Rezel-Potts, P White, J Downs, N Boddy, K Sayal, E Sonuga-Barke

- 52 Potential for England's statutory school entry assessment to identify special educational needs and reveal structural inequalities: a population-based study
M L Wood, L Gunning, S Relins, K Sohal, J Wright, M Mon-Williams, A L Atkinson

- 58 External validation of a multivariable prediction model for identification of pneumonia and other serious bacterial infections in febrile immunocompromised children
A J Martin, F J S van der Velden, U von Both, M N Tsolia, W Zenz, M Sagmeister, C Vermont, G de Vries, L Kolberg, E Lim, M Pokorn, D Zavadzka, F Martinón-Torres, I Rivero-Calle, N N Hagedoorn, E Usuf, L Schlapbach, T W Kuijpers, A J Pollard, S Yeung, C Fink, M Voice, E Carrol, P K A Agyeman, A Khanijau, S Paulus, T De, J A Herberg, M Levin, M van der Flier, R de Groot, R Nijman, M Emons, on behalf

Viewpoint

- 67 Can universal basic income reduce poverty and improve children's health?
R Huss
- 69 Healthcare prioritisation and inequitable inequalities: why a child health perspective should be incorporated into the current NHS guidance
S Lignou, I Wolfe
