NOTICE TO SUBSCRIBERS.

Subscriptions are payable to the British Medical Association. Address: British Medical Association House, Tavistock Square, London, W.C.1.

NOTICE TO CONTRIBUTORS.

Papers submitted to this journal are accepted on the understanding that they have not been and will not be published in whole or in part in any other journal, and are subject to editorial revision. All papers and other editorial communications should be addressed to Dr. Alan Moncrieff, Middlesex Hospital, London, W.1. The author of an original article should make adequate references to previous work on his chosen subject. A full summary of his observations and conclusions must be given.

Articles must be as concise as possible and be typewritten on one side of the paper only, with double spacing and a margin of not less than $1\frac{1}{4}$ in. Only recognized abbreviations should be used. Graphs, charts, tables, and legends for them should be presented on separate sheets and not included in the text. When half-tone reproduction of x-ray illustrations is required, the author is advised to send the original film unless he wishes to bring out special points in a print of his own choice. Photographs and photomicrographs should be printed on glossy paper, should be larger than the size desired for reproduction, and, if transmitted through the post in a tube, should be rolled with the picture outside. With the exception of letters and numbers, which should be lightly written in pencil, everything that is to appear in the reproduction of a graph or chart should be carefully drawn in black ink on tracing linen, or Bristol board, or stout, smooth, white paper.

References should be arranged according to the Harvard system. In the text, the year of publication must follow the author's name, more than one paper in any one year being indicated by a small letter (a, b, c) after the date. No numbering of references is necessary. At the end of the contribution references are arranged in the alphabetical order of the author's names. The reference details are given as follows: Author's name and initials, year of publication (in parentheses), title of periodical (in italics, abbreviated according to the *World List of Scientific Periodicals*), volume number (bold type, Arabic numerals); and first page number (ordinary type, Arabic numerals) thus:

Cowan, J. (1929). *Quart. J. Med.*, **22**, 237.

When a book is referred to, the place and year of publication, edition, and page number should be given.

Contributors will receive one proof in page, but it is assumed that all but verbal corrections have been made in the original manuscript; an allowance at the rate of ten shillings per sheet of sixteen pages is made for alterations in the proof (printer's errors excepted), and contributors will be responsible for any excess.

Fifty free reprints of articles will, if desired, be given to contributors. A limited number of additional reprints at cost price can be supplied if application is made when returning proofs. An estimate of costs will be given on application to the Publishing Manager, British Medical Association.

Papers which have been published become the property of this Journal, and permission to republish must be obtained from the Editors.

Application for advertisement space should be addressed to the Advertisement Manager, British Medical Association, Tavistock Square, London, W.C.1. (Euston 2111).

Subscription 25/- per annum, post free: (20/- to members of the B.M.A.).
