NOTICE TO CONTRIBUTORS

Papers for publication should be sent to Dr. I. A. B. Cathie, The Hospital for Sick Children, Great Ormond Street, London, W.C.1.

Submission of a paper for publication will be held to imply that it contains original work which has not been previously published. Permission to republish must be obtained from the Editors.

Papers should be as concise as possible and illustrations kept to the minimum. Manuscripts should be typewritten top copies in double spacing. They should have been carefully revised, and alterations in proof, apart from printers' errors, are not permissible.

Photographs and photomicrographs should be submitted unmounted. Drawings and diagrams should be boldly drawn in black ink on stout white paper. Any necessary lettering may be lightly inserted in pencil.

Overseas contributors should nominate somebody resident in Great Britain willing to correct their proofs and deal with the subject of reprints.

Current numbers of the *Archives of Disease in Childhood* should be consulted for information concerning standard abbreviations, etc. In references to papers in the text the year of publication in parenthesis should follow the author's name. References at the end of the text should be in alphabetical order of authors' names, and titles of journals should be abbreviated according to the *World List of Scientific Periodicals*. Book titles should be followed by the place of publication.

Failure to observe the above directions may result in the return of typescripts to authors for correction, with consequent delay in publication.

Twenty-five reprints are supplied free. Further reprints must be ordered when returning proofs.

Subscription. £3 3s. 0d. per annum, post free.

Applications for advertising space should be made to the Advertisement Manager, British Medical Association, B.M.A. House, Tavistock Square, London, W.C.1.
