Papers should in general conform to one of the following categories.

(1) *Original communications.*

(2) *Review articles.* These will generally be by invitation, but authors wishing to prepare a review article or to suggest a subject for review may communicate with the Editors.

(3) *Shorter papers.* Preliminary communications. Descriptions of new methods or apparatus. Case reports bringing to notice conditions of considerable rarity or interest.

Figures should be numbered in Arabic numerals. The legends should be typed on a separate sheet.

Coloured illustrations may be considered, but the author will usually be asked to contribute to the cost.
