Goddard, Keith, Marcovitch, Roberton, Rolfe, and Scopes

Correspondence to Dr. N. R. C. Roberton, Department of Paediatrics, John Radcliffe Hospital, Headington, Oxford OX3 9DU.

**Corrigendum**

On page 473 of the June issue in 'Matched development of a pair of monozygous twins of grossly different size at birth' by J. M. H. Buckler and A. Robinson, *Archives, 1974, 49*, 472, under 'Initial progress', the second paragraph should read:

'Over the course of the first year, the smaller twin caught up her larger sister rapidly. At 14 weeks the weights of twins A and B were 5.78 and 4.54 kg, and at 11½ months 7.94 and 7.63 kg, respectively.'
