

ARCHIVES OF DISEASE IN CHILDHOOD

The Journal of the British Paediatric Association

Annotation

Pathogen or commensal?
P A Davies

169

Peripheral insensitivity to thyroid hormones in a euthyroid girl with goitre
J Mäenpää and K Liewendahl

207

Original articles

Continuous sodium valproate or phenobarbitone in the prevention of 'simple' febrile convulsions. Comparison by a double-blind trial
E Ngwane and B Bower

171

Fetal thyroid hyperplasia, rhesus isoimmunisation, and amniography
D M O Becroft, W M I Smeeton, and J H Stewart

213

Salmonella osteomyelitis in childhood. A report of 63 cases seen in Nigerian children of whom 57 had sickle cell anaemia
A A Adeyokunnu and R G Hendrickse

175

Plasma androgens after a single oral dose of testosterone undecanoate
G Geere, J Jones, S M Atherden, and D B Grant

218

Renal tubular acidosis and nerve deafness
D B Dunger, D P Brenton, and A R Cain

221

Micro-organisms in outpatient infantile gastroenteritis
A M Weindling, J A Walker-Smith, and R Bird

185

Short reports

Zollinger-Ellison syndrome in a child: medical treatment with cimetidine
D P Drake, A G MacIver, and J D Atwell

226

Yeast opsonisation in children with chronic diarrhoeal states
D C A Candy, V F Larcher, J H Tripp, J T Harries, B A M Harvey, and J F Soothill

189

Fracture of the femur, fish odour, and copper deficiency in a preterm infant
I Blumenthal, G T Lealman, and P P Franklyn

229

Dopamine infusion for the treatment of myocardial dysfunction associated with a persistent transitional circulation
G I Fiddler, R Chatrath, G J Williams, D R Walker, and O Scott

194

Late cerebral relapse of congenital toxoplasmosis
R O Robinson and R J Baumann

231

Autoimmune haemolytic anaemia in an asymptomatic carrier of hepatitis B virus
K Yoshioka and H Miyata

233

The trachea in children with respiratory diseases including children presenting as cot deaths
M Wailoo and J L Emery

199

Perineal amoebiasis
J M Wynne

234

A normal paediatric amylase range
P J Aggett and F Taylor

236

Efficacy of orally administered salbutamol and theophylline in pre-schoolchildren with asthma
R C Groggins, W Lenney, A D Milner, and G M Stokes

204

Paediatric Pathology Society
