

ARCHIVES OF DISEASE IN CHILDHOOD

The Journal of the British Paediatric Association

Annotation

Diagnostic radiation risks
T Sherwood 249

Original articles

Fulminant hepatic failure in childhood.
An analysis of 31 cases
*H T Psacharopoulos, A P Mowat,
M Davies, B Portmann, D B A Silk, and
R Williams* 252

Follow-up of children of diabetic
mothers
M Cummins and M Norrish 259

Effects of sleep state and feeding on
cranial blood flow of the human neonate
P M Rahilly 265

Pharmacological closure of ductus
arteriosus in preterm infants using
indomethacin
*H I Obeyesekere, S Pankhurst, and
V Y H Yu* 271

Comparison of hexachlorophane and
chlorhexidine powders in prevention of
neonatal infection
*V G Alder, D Burman, R A Simpson,
J Fysh, and W A Gillespie* 277

Gestational age in twins
W H James 281

Serum 25-hydroxy-vitamin D levels in
malnourished children with rickets
N Raghuramulu and V Reddy 285

Ileal meconium plugs
V C Talwalker and D H Kittur 288

Detection of carbamyl phosphate
synthetase 1 deficiency using duodenal
biopsy samples
*N J Hoogenraad, J D Mitchell, N A Don,
T M Sutherland, and A C Mc Leay* 292

Assessment of neutrophil chemotaxis
and random migration in childhood.
Comparison between leading-front and
lower surface count methods
S Al-Nakeeb and E N Thompson 296

Neutrophil chemotaxis and random
migration in acute lymphoblastic
leukaemia of childhood. Cellular and
humoral aspects
S Al-Nakeeb and E N Thompson 299

Short reports

Severe lactose intolerance with
lactosuria and vomiting
*A Hoškova, J Šabacký, A Mrskoš, and
R Pospišil* 304

Typhoid glomerulonephritis
I Buka and H M Coovadia 305

Proteus mirabilis meningitis and cerebral
abscess in the newborn period
M L Smith and D Mellor 308

Metoclopramide poisoning in children
L C K Low and K M Goel 310

Q fever endocarditis in a 6-year-old
child
R W A Jones and D W Pitcher 312

Facial palsy in an infant with coarctation
of the aorta and hypertension
P Moore and G I Fiddler 315

Neonatal Society 317

Correspondence 321
