early childhood  
*S Krabbe, J Hesse, and P Uldall*

49

Indian childhood cirrhosis  
*M S Tanner and B Portmann*

4

Inherited disorders of 3-methylcrotonyl  
CoA carboxylation  
*J V Leonard, J W T Seakins, K Bartlett,  
J Hyde, J Wilson, and B Clayton*

53

## Original articles

Hepatic haemangiomas: diagnosis and  
management

*V F Larcher, E R Howard, and A P Mowat*

7

A child with atopic features, raised serum  
IgE, and recurrent infection treated with  
levamisole  
*L Businco, F Laurenti, P Rossi, E Galli,  
and F Aiuti*

60

Lethal familial protracted diarrhoea  
*D C A Candy, V F Larcher, D J S Cameron,  
A P Norman, J H Tripp, P J Milla,  
J R Pincott, and J T Harries*

15

Immunological studies in cows' milk  
protein-sensitive enteropathy  
*M Yadav and N Iyngkaran*

24

## Short reports

HBsAg-positive giant cell hepatitis with  
cirrhosis in a 10-month-old infant  
*T Shinozaki, K Saito, and K Shiraki*

64

Serum immunoglobulins IgG, IgM, and  
IgA in maternal cord blood pairs from  
infants of normal and low birthweights  
in Tanzania  
*E R Boersma*

31

Disseminated eosinophilic infiltration of  
a newborn infant, with perforation of the  
terminal ileum and bile duct  
obstruction  
*S M Murray and C J Woods*

66

Hospital morbidity pattern in children  
under 1 year of age born in Sheffield  
1975-6

*B Lloyd, E Pursall, and J L Emery*

36

Spontaneous oesophageal rupture with  
duodenal atresia in a newborn infant  
*H Nakamura, Y Kanazawa, M Hayano,  
and S Mimasu*

71

Height and skeletal maturity in children  
with newly-diagnosed juvenile-onset  
diabetes

*A D Edelsten, I A Hughes, S Oakes,  
I R S Gordon, and D C L Savage*

40

X-linked congenital Addison's disease  
*M A Wakefield and R S Brown*

73

Antibodies to *Herpesvirus hominis* types  
1 and 2 in malnourished Nigerian children  
*A O K Johnson, L S Salimonu, and  
B O Osunkoya*
