President of the British Paediatric Association

Editor, *British Medical Journal*

Technical Editor: Jennifer Orton

Notice to Contributors

Papers for publication should be sent to the Editors, *Archives of Disease in Childhood*, BMA House, Tavistock Square, London WC1H 9JR. Submission of a paper will be held to imply that it contains original work which has not been previously published. Permission to republish must be obtained from the Editors.

Short reports. Case reports, brief laboratory observations, preliminary communications, and other short papers may be submitted for this section. Length must not exceed two printed pages of the *Archives*, i.e. in general not more than 1000 words of text, two figures or tables, and eight references. Single case reports will usually only be considered in this form.

For guidance on ethical aspects authors should refer to Editorials in this Journal (1967, 42, 109; 1973, 48, 751; 1978, 53, 441).

One page proof will be sent to the author submitting the paper.

Reprints. Twenty-five reprints are supplied free and further reprints may be ordered when the proof is returned.

Authors should check the following requirements before submitting a paper:

- (1) Scripts to be top copy and typed in double spacing.
- (2) SI units. The units in which the work was done will appear first with the other units, i.e. SI or traditional units, appearing after in parentheses. A conversion factor should be given as a footnote to tables, and in legends to figures.
- (3) Institution(s) where work done to be stated.
- (4) Name and address of author supplying reprints to be given at end of paper.
- (5) Figures: (a) provided with a caption, typed on a separate sheet, (b) referred to in the text.
- (6) Diagrams to be drawn on stout white paper; any lettering may be lightly inserted in pencil.
- (7) Photographs to be on glossy paper unmounted, and trimmed to include only relevant portion. Any lettering, etc. to be inserted should be indicated on a separate transparent sheet.
- (8) Coloured illustrations may be considered, but the author will usually be asked to contribute to the cost.
- (9) Tables (numbered, with titles) typed on to separate sheets. Large tables are expensive and are not encouraged.

(10) References in the text should be numbered. References given at the end of the paper should be listed in the order in which they are first mentioned. The full title of article or book should be given, and the first and last page numbers of the particular paper or chapter. The titles of journals should be abbreviated according to the style used in *Index Medicus* (see *British Medical Journal*, 24 February 1979 i, 532-535).

(11) Summary to be typed on a separate sheet; and it should say what was done and what was concluded.

Notice to Advertisers

Applications for advertising space and rates should be made to the Advertisement Manager, *Archives of Disease in Childhood*, BMA House, Tavistock Square, London WC1H 9JR.

Notice to Subscribers

Archives of Disease in Childhood is published monthly. The subscription rate is £34.00 in the United Kingdom and the Republic of Ireland, and US \$83.00 in all countries overseas. Payment for overseas subscriptions should be made in US dollars, i.e. US \$83.00, or in your national currency based on the prevailing exchange rate to the US dollar of that currency, payable to the British Medical Association. Orders can also be placed locally through any leading subscription agent or bookseller. (For the convenience of readers in the USA subscription orders, with or without payments, can also be sent to: BRITISH MEDICAL JOURNAL, 1172 Commonwealth Avenue, Boston, Mass., 02134. All inquiries, however, must be addressed to the publisher in London.)

All inquiries regarding air mail rates and single copies already published should be addressed to the publisher in London.

COPYRIGHT © 1981 by *Archives of Disease in Childhood*. This publication is copyright under the Berne Convention and the International Copyright Convention. All rights reserved. Apart from any relaxations permitted under national copyright laws, no part of this publication may be reproduced, stored in a retrieval system, or transmitted in any form or by any means without the prior permission of the copyright owners. Permission is not, however, required to copy abstracts of papers or of articles on condition that a full reference to the source is shown. Multiple copying of the contents of the publication without permission is always illegal.

Lomotil, and hyperglycaemia: correspondence, **157**
metoclopramide, in children: correspondence, **405**
nonaccidental, the elusive diagnosis: correspondence, **156**
- Polycystic disease, percutaneous transhepatic occlusion for bleeding oesophageal varices in: short report, **954**
- Polymorph bactericidal defect and a lupus-like syndrome, **382**
- Porencephalic cysts as result of placental damage at amniocentesis: correspondence, **405**
- Portoenterostomy, hepatic, for biliary atresia, **460**
- Positive pressure ventilation and cranial volume, newborn, **331**
- Postural deformities in congenital nephrotic syndrome: short report, **959**
- Prader-Willi syndrome after age 15 years, **181**
- Precocious puberty, adrenocortical function, effect of cyproterone acetate, **218**
- Precordial catch syndrome: short report, **401**
- Pregnanediols and breast milk jaundice: short report, **474**
- Proceedings, British Paediatric Association, 53rd Annual Meeting, April 1981, York, **801**
- Proctoscopy in infancy,
in necrotising enterocolitis: correspondence, **655**
with reference to its use in necrotising enterocolitis, **121**
- Prolactin,
deficiency, obesity and enlarged testes, a new syndrome: correspondence, **156**
maternal oestrogens, and breast development in newborn, **770**
secretion, disordered, in obese child and adolescent, **386**
- Prophylaxis and febrile convulsions: annotations, **81**
- Proptosis, unilateral, **549**
- Prostaglandins,
in salmonella-induced secretory diarrhoea: correspondence, **570**
synthetase inhibitor in congenital chloride diarrhoea: correspondence, **238**
and toddler diarrhoea, **705**
- Prostatic calcification in 4-year-old boy: correspondence, **407**
- Pseudohypoparathyroidism, maternal, transient neonatal hyperparathyroidism secondary to: short report, **565**
- Publication will be quicker: editorial, **321**
- Pulmonary circulation, developing in health and disease, **807, P**
- Purine nucleoside phosphorylase deficiency associated with a fatal lymphoproliferative disorder: short report, **563**
- Rapp-Hodgkin ectodermal dysplasia syndrome: short report, **791**
- Recurrent airways infections and bronchiectasis, ultrastructural abnormalities of bronchial cilia in, **929**
- Reflex ureteritis: correspondence, **407**
- Renal,
failure, chronic, survival of children: correspondence, **734**
and familial gout, **699**
growth in urinary tract infection, effect of vesicoureteric reflux, **593**
hypoplasia, segmental, and hypertension causing a syndrome of haemolysis and uraemia: short report, **403**
vein thrombosis, unilateral, causing congenital hypertension: short report, **306**
vertebral index in normal children, **390**
- Renin and angiotensin levels in children, **298**
- Respiratory,
depression, and trimeprazine: short report, **481**
distress, neonatal, caused by immotile cilia syndrome, **432**

- infections, frequent, immunocompetence of children, **101**
 inappropriate secretion of ADH in infants with, **358**
 Reye's syndrome: diagnosis by muscle biopsy, **287**,
 correspondence, **964**
 Rickets,
 factors causing in institutionalised handicapped
 children on anticonvulsant therapy, **446**
 hypophosphataemia vitamin D-resistant, treatment:
 correspondence, **76**
 and phosphate deficiency: correspondence, **653**
 and vitamin D treatment, **628**
 Rigid spine syndrome and fatal cardiomyopathy: short
 report, **148**
 Robin anomalad (Pierre Robin syndrome)—follow-up
 study, **663**
 Rotavirus, adenovirus, and non-viral enteropathogens in
 diarrhoea, **264**
 Rubella and juvenile chronic arthritis: short report, **310**
 Salbutamol in asthma,
 administered as aerosol: short report, **722**
 bronchodilator effects, preschool children, **342**
 Saliva carbamazepine and phenytoin level monitoring:
 short report, **637**
 Salmonella-induced secretory diarrhoea: correspondence,
570
 Saudi Arabs, sickle cell disease in, early childhood, **187**
 Seborrhoeic dermatitis, infantile flexural, effect of biotin
 and fatty acid deficiency: short report, **560**
 Secundum atrial septal defect, correction in infancy, **784**
 Sexual abuse, recognition and reporting: correspondence,
570
 Short stature, constitutional, differences in physical
 characteristics, perinatal histories and social back-
 grounds, **922**
 Sick children, nursing: annotation, **241**, **733**
 Sickle cell,
 disease in Saudi Arabs in early childhood, **187**
 homozygous, hypersplenism and splenic seques-
 tration in first five years, **765**
 haemoglobinopathies in England, **676**
 Skeletal and height maturity in newly-diagnosed juvenile
 diabetes, **40**
 Skin necrosis, superficial, in babies prepared for umbilical
 arterial catheterisation: correspondence, **237**
 Sleep problems in young children: annotation, **491**
 Smoking, maternal, effect on fetal growth and nutrition:
 short report, **727**
 Somatomedin-C in the Beckwith-Wiedemann syndrome:
 correspondence, **77**
 Speech, hearing and language in survivors of severe
 perinatal asphyxia, **245**
 Spina bifida cystica, results of selective treatment, **822**
 Spinal dysraphism,
 and neuropathic bladder, **176**: correspondence, **733**
 Spironolactone in congestive heart failure secondary to
 congenital heart disease, **934**
 Splenic,
 hypoplasia and combined IgA deficiency, with re-
 current meningitis: correspondence, **486**
 sequestration and hypersplenism in the first five years
 in homozygous sickle cell disease, **765**
 Stagnant loop syndrome, associated with congenital
 villous atrophy: short report, **394**
 Stature and birth rank, schoolchildren in St. Helena, **116**
 Steatocrit, simple method for estimating stool fat content
 in newborn infants: short report, **725**
 Steroid-responsive nephrotic syndrome and allergy,
 clinical studies, **509**: immunological studies, **517**
 Steroids, plasma, circadian patterns in congenital adrenal
 hyperplasia: correspondence, **654**
 Sucrase-isomaltase deficiency difficulties in diagnosis:
 correspondence, **653**
 Sudden infant death syndrome among children of nurses:
 short report, **312**
 Sugar malabsorption, primary, failure of hydrogen
 breath test to detect, **368**
 see also Lactose
 Synovial haemangioma presenting as monarticular
 arthritis of knee: short report, **558**
 Systemic lupus erythematosus,
 with nephritis, **779**
 and polymorph bactericidal defect, **382**
 Tachypnoea, transient, newborn, two distinct clinical
 entities, **322**: correspondence, **894**
 Testes, enlarged, obesity, and prolactin deficiency, a new
 syndrome: correspondence, **156**
 Testicular complications in connective tissue disease:
 short report, **651**
 Testicular function after combination chemotherapy for
 acute lymphoblastic leukaemia, **275**
 Testosterone, circadian patterns in congenital adrenal
 hyperplasia, **208**
 Thalassaemia major, deficiency of non-suppressible
 insulin-like activity, **855**
 Theophylline, nebulised cromoglycate, and placebo in
 preschool asthmatic children: short report, **648**
 Thermal blanket in reduction of skin water loss in very
 low birthweight babies, **673**
 Thrombocytopenic purpura, isoimmune neonatal, **112**
 Tolazoline in congenital diaphragmatic hernias, **350**
 Topical agents in reduction of skin water loss in newborn,
699
 Torticollis, paroxysmal, benign, in infancy: short report,
956
 Toxoplasmosis: annotation, **494**
 Tracheal,
 compression by an anomalous innominate artery,
 report of 2 cases in a family: short report, **791**
 suction, effect on oxygenation, circulation and lung
 mechanics, newborn, **326**
 Transcutaneous oxygen analysers in clinical use, **803**, *P*
 Transpyloric feeding: correspondence, **316**
 undergoing intensive care: correspondence, **571**
Trichuris vulpis and visceral larva migrans: corres-
 pondence, **406**
 Trimeprazine and respiratory depression: short report,
481

- Trypsin assay of stool as screening test for cystic fibrosis: short report, **151**
- Turner's syndrome, intestinal haemorrhage in: short report, **557**
- Ultrasound,
in cerebral structure and intraventricular haemorrhage in neonate, **416**
real-time, measurement of growth of lateral ventricles in preterm infants with, **900**
- Umbilical,
infantile aortic aneurysm complicating: short report, **795**
superficial skin necrosis in babies prepared for: correspondence, **237**
care and cord separation: short report, **887**
cord, delayed separation, severe widespread infections, and immunodeficiency: short report, **397**
- Under fives, needs, in the family: annotation, **583**
- Upper airways obstruction, presentation with systemic hypertension: short report, **153**
- Uraemia and haemolysis, hypertension and segmental renal hypoplasia causing a syndrome of: short report, **403**
- Ureteritis, reflex: correspondence, **407**
- Uridine diphosphate galactose-4-epimerase deficiency in galactosaemia: short report, **885**
- Urine collection, continuous, in the newborn, new device: short report, **880**
- Ventricular dilatation,
and intraventricular haemorrhage in preterm infants, **804, P**
post-haemorrhagic, longitudinal study in newborn, **905**
- Ventricles, lateral, measurement of growth with real-time ultrasound, **900**
- Vesicoureteric reflux, effect on renal growth in urinary tract infection, **593**
- Villous atrophy, congenital, associated with stagnant loop syndrome: short report, **394**
- Visceral larva migrans and *Trichuris vulpis*: correspondence, **406**
- Vitamin,
status in treated patients with cystic fibrosis, **708**
supplementation, periconceptional, in apparent prevention of neural tube defects, **911**
- Vitamin D concentration, plasma active, in low birth-weight infants with rickets, response to vitamin D treatment, **628**
metabolism, perinatal, seasonal changes, maternal and cord blood biochemistry in normal pregnancies, **943**
1, 25-(OH)₂D₃, autosomal hypophosphataemic bone disease response to, **203**
supplements, plasma 25-hydroxyvitamin D concentrations in preterm infants receiving: short report: **144**
- Waardenburg's syndrome, defect of neutrophil mobility with dominant inheritance, **279**, correspondence, **814**
- Water,
loss, methods for reducing in low birthweight babies: correspondence, **317**
skin, in the newborn, reduction. I. Effect of applying topical agents, **699**. II. Clinical trial of two methods in very low birthweight babies, **673**
supplementation, effects on physiological jaundice in breast-fed babies: short report, **568**
- Waterbed, regularly cycled oscillating and non-oscillating controlled trial in prevention of apnoea, preterm infant, **889**
- Weighing, test, routine clinical, as a measure of intake of breast-fed babies, validity, **919**
- White cell count, effect of contaminating cerebrospinal fluid with blood: short report, **400**
- Whooping-cough,
immunisation controversy, **577**
study of severity in hospital cases, **687**
- Women in paediatrics: editorial, **409**, correspondence, **893**
- X-linked,
congenital Addison's disease: short report, **73**
mental retardation: annotation, **410**
syndrome, and prolactin deficiency, obesity and enlarged testes: correspondence, **156**
- Xanthines and necrotising enterocolitis: correspondence, **238**
- Zinc deficiency, symptomatic, in a breast-fed infant: correspondence, **315, 735**
