

ARCHIVES OF DISEASE IN CHILDHOOD

The Journal of the British Paediatric Association

Annotation

Acne vulgaris—a disease treatable by the paediatrician

W J Cunliffe 245

Original articles

Retrolental fibroplasia—controlled study of 4 years' experience in a neonatal intensive care unit

V Y H Yu, D M Hookham, and J R M Nave 247

Management of neuropathic urinary incontinence in children by intermittent catheterisation

J E S Scott and S Deegan 253

Reye's syndrome in children under three years old

M H Bellman, E M Ross, and D L Miller 259

Rectal absorption of diazepam in epileptic children

S Dhillon, E Ngwane, and A Richens 264

Protein and fat absorption in prolonged diarrhoea in infancy

M D Mann, I D Hill, G M Peat, and M D Bowie 268

Necrotising enterocolitis in the very low birthweight infant: expressed breast milk feeding compared with parenteral feeding

F Eyal, E Sagi, I Arad, and A Avital 274

Clinically important immunological processes in acute and fulminant hepatitis, mainly due to hepatitis B virus

M K R Mackenzie, P Kiepiela, R Cooper, and H M Coovadia 277

Liver volume estimation using ultrasound scanning

G W Rylance, T A Moreland, M D Cowan, and D C Clark 283

Gonadal function after combination chemotherapy for Hodgkin's disease in childhood

E Whitehead, S M Shalet, P H Morris Jones, C G Beardwell, and D P Deakin 287

Interpretation of arm circumference as an indicator of nutritional status

I McDowell and F S King 292

Simple estimate of creatinine clearance from plasma creatinine in neonates

G Zacchello, M Bondio, O S Saia, G Largaiolli, R Vedaldi, and F F Rubaltelli 297

Current topics

Potential for plasma exchange in children

E A E Robinson 301

Short reports

Glycogen storage disease (type I) presenting in the neonatal period

B R Hufton and B A Wharton 309

Liver damage in a neonate with alpha-1-antitrypsin deficiency due to phenotype PiZ null (Z⁻)

J Burn, D Dunger, and B Lake 311

Oral solutions for gastroenteritis—optimal glucose concentration

B Kjellman and E Ronge 313

HLA typing as a method of genetic counselling in congenital adrenal hyperplasia

M O Savage, H Field, E Wolf, M E Pembrey, and D B Grant 315

Hepatic cellular injury during varicella

M G Myers 317

Report

Career prospects in paediatric gastroenterology
