

JULY 1989
VOLUME 64
NUMBER 7

Original articles

- 897 Cerebral blood flow velocity variability after cardiovascular support *Rennie*
- 902 High alkaline phosphatase activity and growth *Lucas, Brooke, Baker, et al*
- 910 Bone mineral accretion rate and calcium intake *Horsman, Ryan, Congdon, et al*
- 919 Bone mineralisation measured by dual energy radiographic densitometry
Lyon, Hawkes, Doran, et al
- 924 Limitations of patient triggered ventilation *Mitchell, Greenough, and Hird*
- 930 In vivo distribution of human milk leucocytes after ingestion
Jain, Vidyasagar, Xanthou, et al
- 934 Effect of prenatal lignocaine on auditory brain stem evoked response
Bozynski, Schumacher, Deschner, et al
- 939 Plasma amino acid concentrations in parenterally fed preterm infants
Clark, Henderson, Smith, et al
- 943 Eyelid opening in preterm neonates *Robinson, Moseley, Thompson, et al*
- 949 Endogenous formation of prostanoids in persistent pulmonary hypertension
Kühl, Cotton, Schweer, et al

Regular review

- 953 Magnetic resonance and near infrared spectroscopy of perinatal hypoxic-ischaemic brain injury *Wyatt, Edwards, Azzopardi, et al*

Personal practice

- 964 Fetal cardiac abnormalities *Allan*

Perinatal lessons from the past

- 969 Baron Dupuytren (1777-1835) and congenital dislocation of the hip *Dunn*

Special report

- 971 Recognition and management of fetal abnormalities
Members of the Joint Study Group on Fetal Abnormalities

This journal is published as part of the British Paediatric Association journal series. The journal is published by the British Paediatric Association, Tavistock Square, London WC1H 9JR. ISSN 0003-9888. The journal is published quarterly in July, October, January and April. The journal is published by the British Paediatric Association, Tavistock Square, London WC1H 9JR. ISSN 0003-9888.
