

# THEY NOW COST LESS

## ADEXOLIN LIQUID

Adexolin Liquid is a high concentrate of vitamins A and D—20 times more potent than high grade cod-liver oil—especially valuable in the treatment of all epithelial infections and generally, infections of the respiratory tract. Tasteless and inodorous. These reduced prices bring Adexolin Liquid within the reach of a far wider public than ever before.

2-oz. bottles now	-	7/6
4-oz. " " "	-	12/6
8-oz. " " "	-	22/6

2/6 phials increased in size from 8-c.c. to 3-ounce.  
Price unchanged.

### OSTELIN LIQUID.

Prices have also been reduced and the 8-c.c. phials increased in size. Now 3-oz. still 2/6.  
2-oz. bottles 7/6, 4-oz. 12/6.

## OSTOMALT

Ostomalt is the most highly concentrated malt preparation of vitamin A, B complex, C and D and contains three times as much vitamins A and D as ordinary oil, and malt preparations of dubious vitamin content and unappetizing flavour. The concentrated orange juice and the constant vitamin content of Ostomalt has made it the accepted family vitamin tonic. A popularity that these reduced prices will extend still further. Dosage in teaspoons *not* tablespoons.
